Objective

To get a job in the video game industry and continue to learn and master my programming skills. I believe that no matter how much a person knows that there is always more to be learned which is why I love the challenge of programming. I have had a passion for playing and making video games all of my life and I greatly believe that this is the field for me.

Profile:

Technical Skills

- Programming: C++, Java, and Python.
- Graphic design tools: Adobe Photoshop, and Adobe Flash.
- Game engines: Unity, UDK, Game Salad, LibGDX, and Pygame.
- Ability to work with various IDE's (Visual studios, Eclipse, and Xcode).
- Ability to develop games for the Ouya game console (lead programmer for an Ouya game currently in development).
- Developed and published a game onto the Apple App Store (Monster Bounce).
- Able to design and create high quality website graphics and layouts.
- Great skills with all Microsoft and Apple operating systems.

Transferable Skills

- Excel at problem solving, even under time sensitive deadlines.
 - Strong ability to communicate both verbally and visually.
 - Learn from constructive feedback.
 - Strong leadership skills. (currently NBCC Student Council Vice President, lead programmer for various projects and Game Jams).
 - Great ability to help and motivate others.
 - Take pride in my work and strong attention to detail.
 - Work independently, as well as in a team environment.
 - Able to quickly learn new tools and programming languages.
-
